About us

The development of the yachting industry in Italy has grown remarkably in the past few decades producing new needs and new services request.

A vessel cruise success is often guaranteed by the combination of a deep, authentic local knowledge and a problem-solving attitude in an ever more demanding environment.

The Luise Family, since 1847, is indeed the leading yacht agency in Italy due to the extensive professional experience of both J.Luise & Sons Ltd and Luise International Srl.

This merge has made Luise Group the one and only reliable point of reference for owners, captains, management companies, charter brokers and all the other stakeholders involved in the yachting community.

Luise Group is part of Federagenti, the National League of the Italian Shipping Agents and Shipping Brokers, through which we are able to directly liaise with the Italian Ministry of Infrastructure and Transportation (and other relevant political entities) in order to deal with multi-layered issues concerning yachting in Italy.

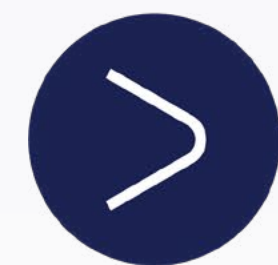

Luise Group most prominent feature is that it offers a complete and encompassing assistance throughout the yacht cruise, 24 hours a day, 7 days a week, providing a wide range of services to customers (shore based and on board alike) in a timely and efficient manner.

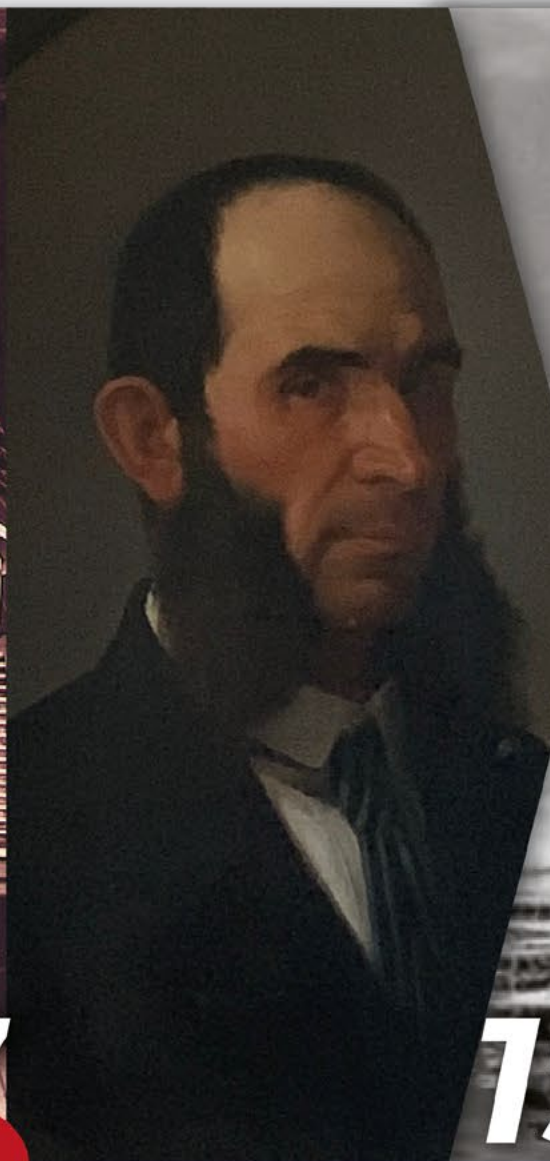

Success in the yachting industry today has become a matter of organization: it is an essential feature that a modern yachting agency cannot lack in order to face the always more challenging requests by our beloved clients.

Company Development

1847

The Company was founded by Joseph Luise, who became one of the forefathers of this elite industry when he established J. Luise & Sons, in the Italian city of Naples.

1950

After World War II (when fascist regime shut off the company due to its relationships with mostly english customers), an evolution of the market has led to a larger client base with a growing number of vessels both in numbers and size and resulted in a rising number requests for professional assistance and services.

1973

J. Luise & Sons led by the brothers Rismondo, Tomaso and Vico, consolidated their experience to create the first superyacht mooring facilities in the center of the city of Naples. Following this great success they transferred their vast experience to Capri and Ischia islands.

2003

J. Luise & Sons Ltd and Luise International marked the beginning of Luise Group that has become one of the strongest partnerships in the yachting industry today

PROFESSIONAL YACHTING SERVICES AT ITS BEST

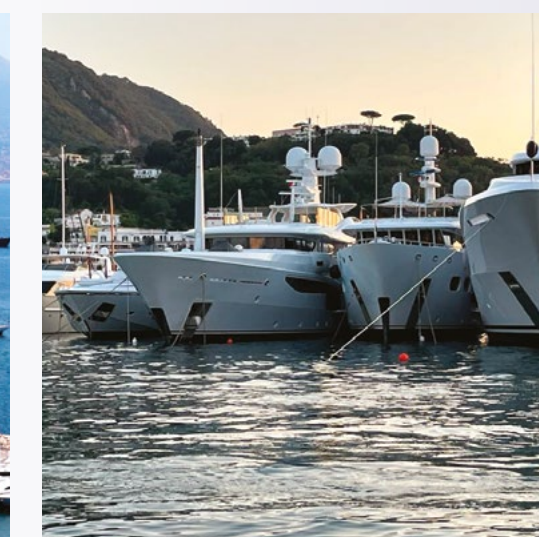

We take care of everything, everywhere

Although Naples town could be considered our HQ, Luise Group's area of operation extends beyond its Neapolitan basin at Marina Molo Luise. In addition to serving the nearby tourist ports of Capri, Ischia, Stabia, Amalfi and Sorrento, we provide support to superyachts along the entire Italian coastline. **We take care of everything, everywhere**

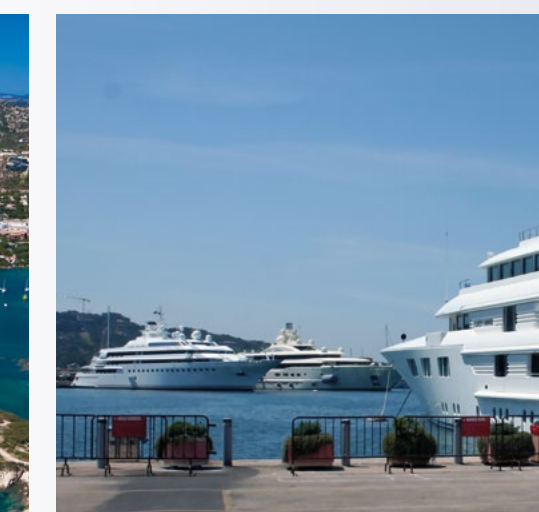

Naples is where the heart of the Company resides. Being based here since 1847, far from boasting ourselves up, our local knowledge is truly second to none. Local relationships (based on mutual trust and professionalism) with the most local authorities, VIP restaurants owners, marinas and providers in general are a really valuable plus. Furthermore, a part from agency, here in Naples bay we also directly manage several facilities, such as Marina Molo Luise in Naples, Stabia Main Port in the heart of Castellammare town and Ischia Main Portas well!

Sicily has so much to offer that it never fails to meet the expectations of those who visit it for the first time or those who return to it because already charmed. Our special events department has developed and grown over years of exploration, both of the land and of the guests preferences that we have welcomed since 2005. Actually, we also manage a truly smooth and clean facility close to Catania airport: Molo Costanzo in Riposto town.

Since the Seventies, **Sardinia** has been very popular as a yachting destination, thanks to the mesmerizing turquoise water nestled in a jagged coastline, becoming a universal symbol of a dreamy vacation: since 2001, Luise Sardinia, also known as Sardinia Yacht Services, is the compass chosen by many yachts to discover the hidden gems of this beautiful island. Aimed at serving the needs of Mega Yachts in the most professional manner possible, the SYS team can provide vessels with a wide range of services, including facilities in Olbia and Cagliari and a Gourmet shop dedicated specifically to the yachts' chef.

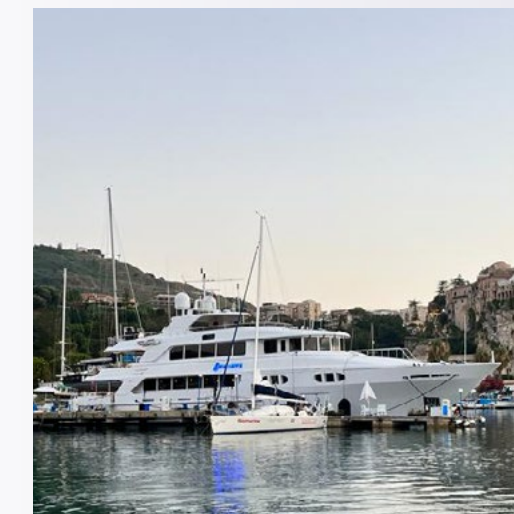

Luise **Rome** is a modern organization built on the heritage of five generations of family experience in yachting. Luise Rome is proud to provide a comprehensive set of services for its clients, ensuring that every detail is cared for with efficiency and expert handling. Here we also manage several berth spots in the very well known Porto Turistico di Roma, the closest marina to the Italian Capital City.

SICILY

Palermo Marina Yachting is the latest addition to the facilities managed by Luise (a co-managed one actually); located in the trapezoidal pier in the heart of the city of Palermo (the largest town on the whole island) it's a safe and quite area (30 thousand square meters) a brand new dockage option for small and large vessels alike. The pier features several restaurants (even Michelin starred ones) and shops where it is possible to enjoy the authentic Sicilian cuisine and delve deeper into Italian fashion. One of the main attraction is undoubtedly the artificial lake which houses a dancing fountain, a spectacular play of water jets and lights to the rhythm of music.

Palermo Marina Yachting is indeed your first choice for guests pick-up and drop-off due to its proximity to the local airport but it's definitely an option also for crew eager to visit one of the most popular venues in the South of Italy, Palermo, the capital city of the "Regno delle Due Sicilie" the kingdom which stood before the Italian unification during Bourbon Kings' age!
